1 TYRESURE WIRELESS SYSTEM

Advanced wireless tyre pressure monitoring system (TPMS). Saves fuel, saves lives and saves tyre wear! System includes 4 sensors and an attractive display screen for the cabin.

From a racing or track day perspective, tyre pressures can be fine tuned to improve performance. TyreSure monitors and displays both pressure and temperature.

The sensors can be fitted to your wheels at any good tyre fitter.

- Monitors tyre pressure and temperature
- 24hr - 365 days a year monitoring
- System alerts driver within 3 seconds of any abnormality
- Saves lives
- 7 year sensor battery life
- No need to check tyre pressures again
- Saves fuel
- Perfect for road and track

A 6PSI drop in pressure can lead to a 10-20% increase in fuel consumption and 30% increase in tyre wear.

Tyre pressure monitoring systems are now mandatory on all new cars in the USA, that is how important this feature now is. TyreSure racing partners include Honda LeMans 24hr team, Formula Renault and C1 Supercup.

Unit size 85mm, Height 50mm, Depth 20mm.

The HICON GT Series features individual lowering in combination with sporty pre-set damping rates.

104 1014

2 HICON TX 'PLUS' COILOVER KITS

Height adjustable/adjustable damping rates

The HICON TX 'plus' coilover kits have been designed for sporty and ambitious drivers, who want to adjust the damping rates of their rides.

104 1015

3 HICON TX GTN COILOVER GROOVED RING ADJUSTABLE KITS

Height adjustable rear axle grooved ring adjustment/fixed damping rates

WEITEC suspension strut with coilover adjustment on the front axle, GT sport dampers with grooved ring adjustable spring plates on the rear axle allow an economic access into the coilover world.

104 1016

4 SPORT F LOWERING SPRINGS

WEITEC Sport Springs are manufactured in cold winding mode according to DN ISO 9001. High-quality chrome silicon steel and hardening processes, as well as the final epoxide-casting ensure a long-lasting driving pleasure. Over 1000 spring kits in various versions are available, even for specialised cars.

105 1007

5 ULTRA GT SPORT SUSPENSIONS

WEITEC ULTRA GT sport suspensions are high-quality products, but have an unbelievable price-performance ratio. For an optimal suspension tuning, WEITEC Sport Springs have been combined with WEITEC GT dampers.

ANTI ROLL BAR KITS

Specially developed and engineered to reduce body roll and help keep your vehicle more stable when cornering and during quick changes of direction. Tuned for use with Eibach suspension components, but also ideal for use with standard springs if your car is not lowered. Designed specifically for each application, they are supplied powder coated for longevity and with a full fitting kit. Includes 2 year warranty.

> EIBACH ANTI ROLL BAR KITS Part No. 125 1001

EIBACH PRO SPACERS

Eibach Pro Spacers are made from high tensile aluminium alloy. They are available in different "systems" to suit particular requirements (see below for details).

They are ideal for obtaining the correct offset for non-standard alloy wheels or to simply extend the track of the vehicle to optimise handling. Also useful for giving additional clearance when fitting alloy wheels to vehicles with big brake calipers.

All spacers/spacer kits are supplied in pairs. Dimensions shown are per spacer e.g. 5mm will increase the overall track of the car by 10mm.

- **Exact fitment by using minimal production tolerances, resulting in exceptional wheel balance**
- **All applications tested in rigid durability and fatigue tests**
- **High grade corrosion protection through a special coating process (salt spray test according to DIN 50021)**
- **Significant weight advantage compared to wheel spacers made from steel**

2 CAR SPECIFIC WHEEL SPACERS (for use with bolt on wheels that are fixed with bolts i.e. not nuts). Incorporating centre bore "collar"/"nose". (System 2)

- Pair of wheel spacers
- Centre bore and position of holes tailored to each individual vehicle
- Incorporates a "collar"/"nose" to ensure wheel locates correctly

NOTE: System 2 spacers require longer bolts (not supplied - see page 29/30 or contact us for advice)

Please specify car make, model and year when ordering.

3 CAR SPECIFIC WHEEL SPACERS (for use with wheels that are fixed with bolts i.e. not nuts). Incorporating centre bore "collar"/"nose". Complete with "locating screws". (System 3 and 7)

- Pair of wheel spacers
- Centre bore and position of holes tailored to each individual vehicle

System 3 spacers are also available with steel bushing incorporated. When supplied with steel bushing the kit is known as "System 7". Certain applications are only available in one of these systems.

- Incorporates a "collar"/"nose" to ensure wheel locates correctly
- Complete kit comprises of pair of multi-drilled spacers that bolt to the hub using new flush-fit bolts supplied. The wheel then bolts directly to the spacer using the original bolts

103 1074 25mm System 3 Spacers*
• **£110.61 Pair**

System 7 prices are shown below

103 1075 20mm System 7 Spacers*
• **£120.00 Pair**

103 1076 21mm System 7 Spacers

• **£125.22 Pair**

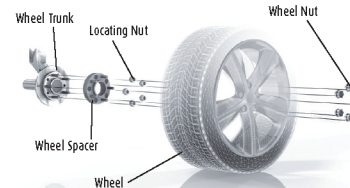

103 1078 30mm System 7 Spacers
• **£132.52 Pair**

Please specify car make, model and year when ordering.

*Prices may vary dependent on make and model. Check website or in-store for exact prices.

4 CAR SPECIFIC WHEEL SPACERS (for use with wheels that are fixed with nuts i.e. not bolts). Incorporating centre bore "collar"/"nose". Complete with "locating nuts". (System 4 and 8)

- Pair of wheel spacers
- Centre bore and position of holes tailored to each individual vehicle
- Incorporates a "collar"/"nose" to ensure wheel locates correctly

System 8 prices are shown below

103 1086 25mm System 8 Spacers
• **£149.22 Pair**

103 1087 30mm System 8 Spacers
• **£154.43 Pair**

Please specify car make, model and year when ordering.

- Complete kit comprises of pair of multi-drilled spacers that fix to the hub using new flush-fit nuts supplied. The wheel then fixes directly to the spacer using the original nuts

103 1079 15mm System 4 Spacers*
• **£113.74 Pair**

103 1080 16mm System 4 Spacers
• **£114.78 Pair**

103 1081 20mm System 4 Spacers*
• **£110.61 Pair**

103 1082 25mm System 4 Spacers*
• **£112.70 Pair**

• **£142.96 Pair**

103 1085 45mm System 4 Spacers
• **£172.17 Pair**

System 4 spacers are sometimes supplied without a locating "collar"/"nose" for certain applications. When supplied without a locating "collar"/"nose" the kit is known as "System 8"

5 CAR SPECIFIC WHEEL SPACERS (for use with wheels that are fixed with nuts i.e. not bolts) (System 5)

- Pair of wheel spacers
- Centre bore and position of holes tailored to each individual vehicle

- Incorporates a "collar"/"nose" to ensure wheel locates correctly
- Kit comes complete with new, longer studs

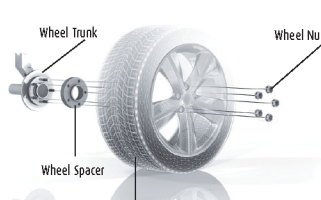

103 1088 5mm System 5 Spacers
• **£52.17 Pair**

NOTE: Size of the new studs supplied is related to the size of the spacer e.g. 5mm spacer will be supplied with stud that is 5mm longer than the original stud.

Please specify car make, model and year when ordering.

6 CAR SPECIFIC WHEEL SPACERS (FOR USE WITH WHEELS THAT ARE FIXED WITH NUTS I.E. NOT BOLTS). INCORPORATING CENTRE BORE "COLLAR"/"NOSE". (SYSTEM 6)

- Pair of wheel spacers
- Centre bore and position of holes tailored to each individual vehicle
- Incorporates a "collar"/"nose" to ensure wheel locates correctly
- Kit comes complete with new, longer studs

103 1089 7mm System 6 Spacers
• **£121.04 Pair**

103 1090 10mm System 6 Spacers
• **£98.09 Pair**

103 1091 15mm System 6 Spacers*
• **£103.30 Pair**

103 1092 18mm System 6 Spacers
• **£132.52 Pair**

103 1093 20mm System 6 Spacers
• **£110.61 Pair**

NOTE: Size of the new studs supplied is related to the size of the spacer e.g. 10mm spacer will be supplied with stud that is 10mm longer than the original stud.

Please specify car make, model and year when ordering.

EIBACH PRO KIT LOWERING SPRINGS

Designed and engineered to give your car a more aggressive and sporty look. Progressively wound, they create an excellent balance between increased performance and ride quality. Pro kits generally lower the car between 25mm and 35mm, making them ideal for use with both standard or uprated dampers. Kits come with 5 year manufacturers warranty.

Better handling, ride and refinement can only be achieved by dedicated specialists like APEX®, who have all the knowledge in house, from experienced shock and spring-specialists, to test drivers with race experience.

They began life in the early 80's when they started to supply sport-springs for Group A Touring cars. Since those early years, they have amassed an enormous experience designing and manufacturing all kinds of sport springs. An expertise that culminates in the APEX® Lowering Springs Program.

Their aim has always been and always will be to deliver the best. Their modern state-of-the-art manufacturing plant and test facilities operate under the most stringent quality control systems. A 5-year, unlimited mileage warranty is proof of their commitment to quality.

2 SHOCK ABSORBERS

3 SUSPENSION KITS

1 SPORTS SPRINGS

An APEX® Sport Spring kit easily replaces the standard springs on your car. It will usually lower the car by 30-40 mm. Not only will this improve your car's handling, response and grip, but will add that extra touch of style that will make your car look different from the rest of the crowd. The ride will be a little firmer, and sportier, but never too harsh.

105 1006 • FROM £51.00

When it comes to driving enjoyment, the world's most renowned automotive manufacturers place their confidence in just one name: Bilstein. The legendary driving characteristics demonstrated by such cars as the Porsche 911, Mercedes-Benz S-Class, Bugatti Veyron, Audi R8, Nissan GT-R, and many more, stem from the innovation and experience of Bilstein engineers. Armed with this know-how, Bilstein offer high-quality series production and spare parts for virtually every vehicle model – so you can enjoy that unique BILSTEIN driving experience.

1 B6 SPORTS DAMPER

The damper for those drivers who prefer a sports suspension but do not want to lower their car. Optimum road holding, enhanced tracking stabilisation and excellent damping force. The B6 Sport is the first choice for sports tuning.

107 1001

2 B8 SPRINT DAMPER

The B8 Sprint damper is specially designed for lowered vehicles. This shortened high performance damper provides the optimal balance when combined with good quality lowering springs. Not only does it give you excellent road holding at high speed but also smooths out bumps giving you an excellent ride.

107 1002

3 B12 TUNING KITS

The winning formula for sporty driving performance. Springs and shock absorbers road-tested and fine-tuned to complement one another perfectly. Bilstein gas pressure technology dampers combined with Eibach performance springs with progressive characteristics. 2 Different options being available. **Pro-Kit** – offering lowering up to 30mm. **Sportline** – offering lowering up to 40mm.

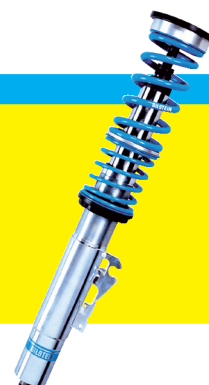

106 1003

4 B14 PSS RIDE HEIGHT ADJUSTABLE KIT

Suspension with variable height adjustment for better looks and enhanced technical features. Bilstein B14 height-adjustable suspension simply can't be overlooked. The system not only enhances appearance but significantly improves handling performance.

104 1005

5 B16 PSS9/10 RIDE HEIGHT AND DAMPING ADJUSTABLE KITS

Height and damping adjustable suspension for maximum vehicle control, especially when driving on the limits. The threaded height adjustment feature allows body height and vehicle balance to be adapted to individual needs. 9/10 Damping force settings are precision adjusted on the compression and rebound stroke to give perfect set-up. Bilstein racing technology for the road.

Manufactured in The Netherlands and sold in 35 countries, V-Maxx offer a comprehensive range of height and height/damping adjustable coilovers.

HEIGHT ADJUSTABLE KITS

With on-vehicle ride height adjustment and factory-set damping, the ride height can be easily adjusted allowing you to achieve the ultimate stance. Damping is preset by V-Maxx to give the best balance between sporty handling and ride comfort for fast-road driving.

HEIGHT AND DAMPING ADJUSTABLE KITS

Combining on-vehicle adjustment of height and damping, this kit gives improved control over the fixed damping kits whilst still allowing easy height adjustment for that perfect vehicle stance. Damping ranges from "road comfort" to "trackday stiff" with 20 click levels of adjustment.

V-maxx kits feature:

- 2 Year manufacturer backed warranty
- On car Height Adjustment
- TÜV approval across all kits
- High Quality Components

WHY FIT POLYBUSH?

- Impressive and Confident Ride • Excellent Noise Damping
- Sharper Turn in - Predictable Cornering • Controlled Suspension Movement
- Reduced Body Roll • Designed & Engineered to Exact Specifications
- Pure Materials, Immense Flexibility & Resilience
- Fit & Forget - Excellent Longevity

Polyurethane is an ideal material for making into suspension bushes. Its combination of high tensile strength and elasticity translates into immense durability in the toughest conditions. Polyurethane Bushes have excellent resilience, springing back in to shape effortlessly to absorb shock and prevent dirt ingress and wear. Lastly, it doesn't age or perish - rubber bushes both perish and are attacked by oils and fuels.

ANTI ROLL BAR BUSHES

You need the resilience of polyurethane to ensure a tight fit to the bar. This avoids knock and squeaks from loose bushes and minimises wear.

CONTROL ARM BUSHES

Polyurethane's elasticity allows control arms to move as intended whilst its tensile strength soaks up punishment from cornering, braking, accelerating and poor road surfaces.

SPRING BUSHES

Spring bushes are subject to the same forces as a control arm bush, as well as supporting the weight of the vehicle. Polybushes, with their combination of strength and elasticity, improve bush life and ride quality.

SHOCK BUSHES

Shock bushes can crush down leaving the shock to rattle on its mountings. Polyurethane's resilience counters this without needing as hard a bush.

MOUNTING BUSHES

All the vehicle's moving components cause noise and vibration so Polybush make a range of mounting bushes for steering, suspension, engines and transmissions. The polyurethane isolates these unwanted buzzes and rattles, but holds the components firmly in place improving ride smoothness and body control.

The table shows the most popular fitments. However if your vehicle is not listed please enquire.

Kit prices shown cover the essential bushes required. Individual bushes can be purchased on request. Kits do not usually contain anti-roll bar bushes. In most cases these are available at additional cost.

EBC SPORT DISCS

3GD Discs with wider slot draws cool air across the pad surface keeping pads and rotors cooler. They also expel dust, dirt and hot gases better than fine slots which eventually fill with rust and scale and become ineffective. The blind drilled holes break down surface gases when braking from speed but do not weaken the rotor cross section as can happen with drilled through, thereby lessening the chance of rotors cracking over time and heavy use. Gold zinc anodised.

ULTIMAX BLACK ANODISED DISCS

Brand New Ultimax Black Anodised rotors also available for a limited range of cars. Much quieter braking and feature a new special paint process to prevent corrosion. Unique Ultimax slot design.

ULTIMAX PADS

A high friction pad designed for general replacement use on cars, vans and SUV's. Using shimmed, chamfered and slotted technology and incorporating EBC's unique BRAKE-IN coating for super quick pad bed-in.

Black coded brake pads are a high friction premium material approved to ECE R90 brake safety regulations. You are getting an exact equivalent to an original equipment pad for far less money. Don't let the lower price point cloud your view of this superb quality product, these pads will stop your vehicle as fast as any original equipment pad and faster than most aftermarket pads. One brilliant feature of EBC R90 pads is their ability to completely eliminate brake judder and these pads will actually COMPENSATE for mild brake judder after 300-400 miles of use.

GREENSTUFF PADS

FAST ROAD. Designed for premium street driving offering better brake effect at loads and speed. EBC Greenstuff has a high initial brake effect and gives drivers confidence from first application of the brake pedal. The EBC pad creates less dust and the dust is more easily washed off than most. For heavier faster cars and vehicles above 200bhp we strongly recommend Redstuff Pads.

REDSTUFF PADS

ULTIMATE FAST ROAD. Ceramic formula. This is a truly impressive fast road pad for repeated heavy braking. It emits far less dust than semi-metallic pads and has been proven to stop a car 13 metres quicker than OEM pads from 100mph. Features EBC Brake-IN™ surface coating which conditions rotor surface and accelerates pad bed-in.

YELLOWSTUFF PADS

TRACKDAY & FULL RACE USE. Although a full race material and capable of high temperature use with very good wear life, this new formulation sets a new trend in race type brake pad compounds. The 'bite' from cold is superb which is uncommon with race materials (normally requiring warm-up) and makes this a pad which can be safely used on the highway as well as on the race track. This new formulation is used by numerous championship race and rally drivers and is truly a milestone in brake pad material development.

MONSTER

CNC Machined Lightweight Aluminium Body, Four or Six Pistons (i.e. Monster 4 or Monster 6), fully dust sealed, rigid design. Internal Fluid Crossover. Hard anodised Black, other colours available on request. Larger caliper allows for bigger pad to improve braking power.

MEGA MONSTER

The most powerful in the Hi Spec range combining awesome looks and supreme power. In addition to the awe inspiring visuals it keeps all the benefits of the Hi Spec road range including six pistons, internal and external hard anodising, full dust seals and internal fluid crossover.

Please see table for available prices and applications with the various disc sizes and caliper options. It is extremely important that you check the caliper clearance on your particular vehicle before ordering. We can supply an accurate template for your car to see just how big your brakes can go.

112 1001 • £from £680.00

KIT INCLUDES:

• Calipers • Rotors • Braided Hoses • EBC Red Stuff Pads • Brake Fluid • All Fittings

HI-SPEC BRAKE CONVERSIONS

The very highest quality performance brake conversion kits available. Bigger discs, bigger calipers and much more stopping power. Kits include calipers, rotors, braided brake lines, EBC Redstuff pads, brake fluid and all fittings. Supplied with Black calipers and Silver bells as standard, other colours available on request.

Caliper Options: BILLET 4

The most universally applicable and widely used model. It features a rigid lightweight aluminium body which is CNC machined from Billet Bar. Dust seals and internal fluid transfer galleries along with the rigid design ensures that the Billet 4 is consistently suited to the weight and power of your car. Supplied as standard in Black with engraved Hi-Spec logo. Other colour options available on request.

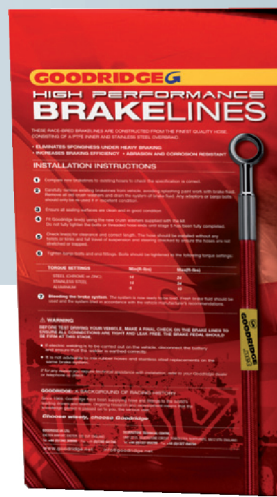

BRAKE CONVERSION KITS from £680.00

As the world's leading supplier of brake lines and fittings, Goodridge offer a complete range of pre-assembled stainless steel brakeline kits to suit every make and model of car. Goodridge brake line kits provide the reliability and performance demanded by the top manufacturers and racing teams.

- Eliminate spongy pedal feeling • Reduce braking distance
- Improve the safety of your vehicle • Resistance to corrosion

THE TUNER'S CHOICE

The only stainless steel exhausts to be designed and manufactured by a serious tuning company. The systems are formed from 1.5mm wall T304 stainless steel tube on state of the art CNC machines. Mandrel bent (not cut and weld), the silencers are formed from polished stainless steel and packed with the highest quality materials available.

The systems are finished with a choice of highly polished tail pipes, and our own tests have shown that a Mongoose will give more power than any other aftermarket exhaust system.

WHY CHOOSE A GREEN COTTON AIR FILTER?

- Leading air filter supplier to the motor sport industry.
- Deep pleats in the cotton filter increase surface area by up to 20% allowing greater air flow.
- Precision production techniques virtually eliminate rubber seepage on to the filter surface.
- Maximises air flow into the engine thus increasing horse power, throttle response and torque.
- Environmentally friendly, produced from a natural renewable resource which is washable, reusable and creates less waste than paper and foam filters

GREEN
COTTON AIR FILTER

1 PERFORMANCE REPLACEMENT FILTERS

These filters simply replace your existing standard paper filter (element) and offer reduced restriction of the air intake system. 100,000 mile guarantee. Easy to install.

Ensures maximum airflow through original air box.

2 SINGLE CONE INDUCTION KITS

Derived from their involvement in developing motorsport air filters, the purpose of these induction kits is to deliver maximum amounts of unrestricted, high volume air, straight to the engine but maintaining excellent filtration characteristics.

Available for Audi TT, Ford Fiesta ST, Honda Civic Type R, Mini Cooper, Mitsubishi Evo, Peugeot 106GTi, Renault Clio Sport, and many more. Contact us for full range of applications.

118 1009 • from **£61.44**

3 DYNAMIC POWERFLOW INDUCTION KITS

These New Dynamic Powerflow Induction kit systems are the ultimate combination of engine bay styling with genuine performance gains. Improved air flow that helps increase torque and horse power. Specially designed for right hand drive UK spec vehicles. Perfect fit with detailed fitting instructions.

Available for Ford Focus, Honda Civic Type R, Peugeot 206 GTi, Vauxhall Corsa Sri and many more. Contact us for full range of applications.

118 1010 • from **£104.00**

4 FILTER CLEANING FLUID AND OIL KIT

Specially formulated cleaning fluid de-greases and cleans the cotton gauze. Green Filter oil helps your Green Filter perform to its full potential, penetrating the gauze and helping the filter trap dirt and dust.

125 1005 (500ml cleaner and 300ml oil) • **£14.99**

5 COLD AIR DUCTING KIT

Each kit consists of a 1 meter length of either silver or black ducting and 2 silver end funnels with fixing clips and ties. The ducting can be positioned in the engine bay so it can direct cold air to where it is required.

Silver Ducting

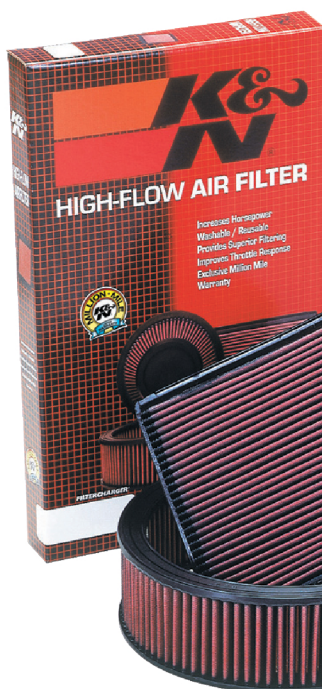

121 1006 50mm diameter • **£19.90**

121 1007 70mm diameter • **£21.90**

Black Ducting

121 1008 50mm diameter • **£21.50**

121 1009 70mm diameter • **£25.50**

1 REPLACEMENT ELEMENTS

Replaces the standard paper element in your existing airbox with a free flowing long life filter - million mile on road guarantee and up to 100,000 miles between cleans. Increased power and response.

High flow and long life - with total protection guaranteed. K&N's famous track record in designing and manufacturing high quality air filters is second to none. All K&N filters are washable, provide superior filtering and give up to 40% more flow.

2 TYPHOON INDUCTION KITS

Highly engineered free-flowing intake systems designed to provide colder denser air for more power. Typical power gains from 5-15bhp! The induction pipe is available powder coated Red, Blue or Silver with an option of a highly polished finish.

1 57i INDUCTION KITS from £38.18

1 57i INDUCTION KITS

For fuel injected cars. Looks good and sounds superb. Replacing the restrictive standard air intake and airbox design with a simple, high-flow induction system unleashes your engines potential to produce more power. The unrestricted air flow increases performance, improves throttle response and gives a crisp induction roar.

118 1004 • from £38.18

2 GEN2 INDUCTION KITS

The sealed air box is force fed from the front of the vehicle with cold dense air. The one piece moulded ABS plastic induction pipe ensures the air entering the engine does not increase in temperature - giving maximum possible horsepower.

Many kits available with more under development. Please enquire for further details.

GREAT SERVICE

Pipercross performance air filters are designed and manufactured in the UK. For 30 years Pipercross have been the UK's filter of choice, this is backed up by supplying winning teams in F1, BSB, BTCC and many more motorsport categories.

The range of Pipercross high flow replacement panel filters are supplied ready to fit. Designed as a direct replacement for your existing paper filter they will save you money over the lifetime of the vehicle.

WHY CHOOSE PIPERCROSS?

- Flows over 30% more air than a standard filter, putting less strain on your engine.
- Improved MPG and Power – Due to the increased air flow.
- Easy to fit – Most filters can be changed in under 5 minutes.
- Lifetime warranty – All filters are covered by the Pipercross lifetime warranty.
- Easy to clean – Pipercross filters can be cleaned and refitted simply and quickly.
- Huge range available – If your vehicle is not listed please check our website or contact us.

Winning teams in Formula 1, Le Mans, DTM and many others consistently choose BMC air filters, demonstrating the high quality of their products. The same materials and technology are used to make sports filters for an extensive range of road cars too.

1 REPLACEMENT FILTERS

BMC's range of replacement filters are available for most cars. Improved air flow can increase both fuel economy and performance.

117 1001 • FROM £35.99

2 CDA KITS

BMC's CDA (Carbon Dynamic Airbox) replaces your cars original airbox. It is specially designed to maximise airflow and filtration inside the special heat resistant carbon housing, resulting in improved performance.

118 1001 • FROM £177.16

3 OTA KITS

The OTA (Oval Trumpet Airbox) is a revolutionary airbox, that can be fitted vertically, horizontally or diagonally, without affecting its performance. The patented trumpet shape allows for perfect distribution of air flow, ensuring increased power.

118 1002 • FROM £258.68

1 ALLOY INTERCOOLERS

Forge intercoolers are manufactured in-house to the highest standards utilising the best quality air cores available. Each intercooler is hand built and under goes testing to ensure they perform to exact specifications.

All offer welded mounting fixtures and high flow end tanks. The universal models have variety of 2" inlet/outlet configurations to suit your particular installation requirements. If your car is not listed and the universal models do not suit your requirements please contact us for a quote on a customised design to your exact specification.

FORGE DUMP VALVES

There are three types of dump valve, sometimes referred to as a Blow-Off Valve (BOV), available. All three serve the same purpose of releasing built-up boost pressure from the turbo. This allows the turbo to keep spinning when you let off the throttle and therefore improve response and extend the life of the turbo.

ATMOSPHERIC - SINGLE PISTON/DIAPHRAGM
Dumps the built-up pressure into the air and creates the famous racing car 'whoosh' noise. Single piston valves are for petrol turbo cars without an Air Flow Meter.

ATMOSPHERIC - TWIN PISTON
Suitable for petrol turbo cars with an Air Flow Meter. This uses counter balanced springs and dual pistons to prevent the valve from leaking air. Dumps to air as above.

RE-CIRCULATING (CLOSED LOOP)
Suitable for all petrol turbo cars. Re-circulates the air back into the intake system, therefore venting the built-up pressure, freeing the turbo, but keeping the net flow of air constant. You do not get the dynamic 'whoosh' noise but you do get an efficient performance increase.

4 SINGLE PISTON

Fast Road Dump Valve - suitable for ALL petrol turbo cars without an Air Flow Meter. Available in Silver or Black. (FMDV001)

119 1004 • **£77.00**

Competition Style - large casing with allen key clamp-on top, rather than screw-on version. Available in Silver or Black. (FMDV002)

119 1005 • **£92.63**

Competition Style with Filter - used where dirty air and particles are likely to get in to the valve vent system. Usually when mounted low near road, next to air vent or used off-road. Available in Silver or Black. (FMDVF003)

119 1006 • **£104.29**

5 TWIN PISTON RANGE

Suitable for most cars with an Air Flow Meter. Available in Silver or Black. (FMDV004)

119 1022 • **£95.00**

Twin Piston with Filter - used where dirty air and particles are likely to get in to the valve vent system. Usually when mounted low near road, next to air vent or used off-road. Available in Silver or Black. (FMDVF005)

3 ACTUATORS

Manufactured from Billet aluminium, the Forge adjustable actuator is a two part assembly that will allow servicing and maintenance. It also allows for rod adjustment to suit the customers individual application.

Actuators are supplied with stainless steel turnbuckles. All components are guaranteed for life.

Available with a choice of spring: 5-10psi, 9-15psi, 14-18psi, 17.5-20psi.

Please enquire for your requirements.

NOLOGY

Nology are the USA's leading manufacturer of high performance ignition systems, spark plugs and other high performance products for street and race vehicles. Nology have well documented success in increasing power through the use of their ignition products with Nology components being installed on some of the world's fastest race vehicles driven by some of the best drivers.

Nology Silver spark plugs are especially designed for high-performance engines. Silver is the best electrical and thermal conductor of any metal, which makes it the ultimate material for a spark plug's center electrode. The large diameter silver center electrode increases spark carrying ability and spark power. Silver is extremely resistant to erosion, guaranteeing a virtually unchanged electrode gap for the life of the spark plug. Most Nology Silver spark plugs are without a resistor, perfect for performance enthusiasts who demand the most from their engines.

Spark plugs are priced at £12 per plug.
Please check your vehicle you may require 4-8 plugs.

E-TECH

E-TECH GAUGES

High quality gauges that are simple to install, yet are reliable and accurate.

Suitable for both competition and road use. Slimline design takes up a minimal amount of space, mounting pods shown below.

- Black Face with white markings and red illuminated pointer for increased visibility.
- Tinted lens so the dials are invisible when the ignition is off, when the ignition is on - a bright clear display appears.
- White back light illumination.
- All gauges are supplied with sender units, wiring, pipe lines, T-pieces and sensors where applicable.
- Alloy gauge housing with Matt finish
- Daisy chain wiring system allows multiple gauges to be powered from a single power supply

All gauge bodies are 52mm in diameter.

PERFORMANCE FILTERS

Drift performance filters provide un-restricted airflow with maximum filtration, ensuring extended engine life and increased horsepower.

DRIFT

WHY USE DRIFT QUALITY FILTERS?

• Lifetime guarantee • Increases airflow with maximum filtration • Increases horsepower and acceleration • Turbo approved • Designed to be used wet or dry • Deep pleats / 3D weave technology • Washable and re-useable • No bleed in surface area • Quality moulded base

No bleed infringement. Bleed infringement reduces the filtration area resulting in up to 5% lost performance.

Strong galvanised steel mesh for strength and durability. Soft mesh will distort particularly with high revving and turbo engines.

Quality moulded base ensuring strong contact to body. Suitable for turbo and performance engines. Filters using a glued type base are not suitable for turbo applications.

With over 50 years experience in developing some of the most effective and technologically advanced surface finishing products available, Farécla products have long been the professionals choice and are used in bodyshops across the country. Over this time paint technology has moved on and Farécla has continued to develop products that work effectively with the new technology. Based on Farecla's trade product technology, the G3 Formula range provides consumers, for the first time, with bodyshop quality products and the ability to achieve the best possible results without needing professional skills or professional equipment.

1 G3 BODYWORK DETOX

Will mobilise surface contaminants to leave your car thoroughly clean and prepared for renovating, scratch removal or waxing. Before any paint renovating, scratch removal or application of wax, it is imperative to ensure that all loose debris and dirt is removed, giving an optimum surface to work with. G3 Bodywork Detox will help achieve the best renovation results.

G3 Bodywork works well on its own, but for best results use as step 1 in our 4 step complete bodywork renovation system.

124 1092 500 ml • £6.99

G3 SCRATCH REMOVER:

Uses a blend of Engineered Diminishing Abrasives to gently and effectively remove unsightly scratches, leaving you with a flawless showroom finish without harming the paint surface.

The Engineered Diminishing Abrasive particles in G3 Scratch Remover break down and reduce in size as you remove scratches, finally turning into a smooth wax polishing fluid. This means it won't harm your bodywork.

2 124 1093 Paste 150ml • £7.99

3 124 1094 Liquid 500ml • £9.99

4 G3 PAINT RENOVATOR

Uses a blend of Engineered Diminishing Abrasives to gently and effectively remove blemishes and colour fading from entire car bodywork panels, leaving you with a flawless finish without harming the paint surface.

124 1095 500 ml • £9.99

5 G3 RESIN SUPERWAX

An interlinked protection system constructed from the highest grade carnauba, montanic and paraffin waxes to provide an easy to apply concentrated wax with unprecedented protection and mirror gloss finish.

G3 Resin Superwax gives bodywork a long-life high gloss finish and protection. It protects from everyday traffic film building up on the surface.

124 1096 500 ml • £12.99

6 G3 WAFFLE APPLICATOR PADS

The special pack contains one white Compound Applicator Waffle Pad for applying scratch removal and renovation products and one black Wax Applicator Waffle pad for applying wax.

Muc-Off

Introducing Muc-Off's 4 Stage Program....

Follow this quick and easy 4 step program and your car will look like it's just rolled off the showroom floor! You won't find another program which creates such an in-depth shine and protective finish, normally only achieved by professional valeters.

1 MUC-OFF FREQUENT WHEEL WASH – Stage 1

Quickly and safely removes road grime, brake dust and dirt deposits. Brake dust and road salt can cause permanent damage to the delicate surface of your rims. Muc-Off Frequent Wheel Wash has been specially developed to quickly and gently break down the accumulated grime while safely protecting the rims clear coat finish. It's non aggressive, fully biodegradable and contains no acids so it's ideal for frequent washing, it's easy to apply and leaves a sparkling finish!

124 1030 1 litre • £7.99

124 1031 5 litres • £19.99

2 MUC-OFF ÜBERSHINE LUXURY CAR SHAMPOO – Stage 2

Muc-Off übershine is a premium car shampoo which makes up to 100 litres of highly effective cleaning solution. Its pH-balanced, rich foam formula enriched with engineered water softeners gently emulsifies dirt and grime leaving a spot free, deep luxurious shine without affecting wax protection. Gentle on all painted finishes as well as rubber, vinyl and plastics.

124 1032 1 litre £9.99

3 MUC-OFF BUG & TAR REMOVER – Stage 2

Bugs & road tar are highly adhesive and when left in place can bond to your paintwork, potentially causing etching and stain. Muc-Off Bug & Tar Remover is specifically formulated to remove bugs and tar quickly and safely from your bodywork. It's also ideal for removing tree sap. It's safe to use on paintwork, plastics, windscreens, wing mirrors and alloy wheels.

124 1029 250ml • £6.99

4 MUC-OFF SILICON SHINE 500ML – Stage 3

- Tool box in a can! all in one restorer, light lubricant and protectant!
- Restores colour and shine to all parts
- Leaves a sparkling shine on all metal, rubber and plastic parts
- Colourless, Odourless, Non Staining Formula
- Effortless application, leaves a dry, long lasting shine

FULLY TAILORED INDOOR AND OUTDOOR CAR COVERS

Specialised Covers made the original tailored car cover in 1981. Today they supply some of the world's most prestigious automotive brands including Audi, Bentley, Lotus, Mercedes and McLaren. Their philosophy combines the use of advanced fabrics with over three decades of fine tailoring. The result is a truly exquisite product that accentuates the lines and contours of your car whilst remaining true to the function of protection.

A tailored indoor cover will fit your car like a fine suit, repel dust and preserve your car's paintwork.

A tailored outdoor cover is essential if you are storing your pride and joy outside for any length of time. The meticulous fit of their covers will prevent the fabric from flapping or rubbing against your car.

Specialised Covers use exclusive fabrics that have been specifically developed to provide unique protective qualities. Contact us with your requirements.

2 DIADEM

Have you been bothered for long enough by your indicator light's "fried egg effect"?

That is why DIADEM indicator lamps only light up yellow when switched on, and discreetly stay out of sight when switched off.

The scratch-proof and cadmium-free DIADEM designer light is ideal for all direction-indicator lights (front and rear).

New, easy-to-install DIADEM lamps can be used to replace conventional amber indicator lights and are approved throughout Europe. Incidentally, DIADEM indicator lights last twice as long as conventional lacquered lights.

ADVANTAGES:

- Amber colour only appears when flashing, neutral white when switched off
- Ideal for today's clear glass headlights
- Suitable for customising older car models
- For all front and rear direction indicators
- Last twice as long as standard lamps
- Approved throughout Europe

MICHELIN

11 ALLOY WHEEL CLEANER

Powerful cleaning agents in this biodegradable cleaner take on the tough job of removing brake dust, dirt, and road film - the first critical step in caring for your wheels and tyres

124 1123 500ml • £6.88

12 TYRE SHINE

Replaces vital components that are lost due to cleaning and aging while leaving tyres with a lustrous shine. It is the only tyre shine product approved by Michelin for use on car tyres.

124 1124 500ml • £8.04

13 BRAKE DUST REPELLENT

Michelin Brake Dust Repellent uses patent-pending technology to guard against the unsightly and damaging build up of brake dust and road film. And because the thin, repellent barrier doesn't give brake dust and dirt the chance to adhere to wheels, subsequent cleanings are quicker and easier than ever.

124 1125 300ml • £4.38

14 WATER FREE HAND CLEANER

Convenient hand cleaner, freshens and sanitises without the need for water.

124 1126 150ml • £4.38

15 'EASY GRIP'® COMPOSITE SNOW CHAINS

Exclusive construction using tough composite material, interlaced with steel clips, to guarantee optimal driveability on snow and ice. Suitable for front or rear-wheel drive vehicles. Compatible with ABS and ESP devices, these snow chains do not generate excessive noise or vibration in use. Quick and easy to fit, especially on cars with a reduced wheelarch capacity. Lightweight materials make 'easy-Grip'® easier to handle and fit. Homologated for use in Europe.

Use the table below to find the snow chains suitable for your wheels.

energy

Ideal to upgrade factory OEM systems, the Energy loudspeakers provide powerful and high-fidelity sound reproduction thanks to the excellent timber balance and unique versatility.

Only a selection of the Hertz Energy range is shown. Visit us in-store or online for information about the full range.

2 TWEETER SET

Compactness, power handling, clear sound: ET 20 has an innovative, very light 20mm Tetolon® soft dome which insures very fast response. The neodymium magnet efficiently controls mobile voice coil movement, providing this tweeter with high sensitivity and clear, natural sound. ET 20 is given with rich mounting hardware, which always allows the best installation solution in the most difficult positions.

135 1043 20mm • £49.99 set

3 COMPONENT SPEAKER SET

Energy systems are the ideal solution to install a very good quality system in factory locations. Given with complete mounting hardware, these systems synthesize and fully represent Energy line sound philosophy. Listening to pure energy.

135 1044 2 Way 130mm

• £149.99 set

4 COAXIAL SPEAKERS

Very good performances without using separate components. ECX Energy coaxials are equipped with a unique tweeter featuring a new Tetolon® soft dome with built-in crossover. The proprietary RHFC™ technology provides the ability to orientate the tweeter to attain the ideal dispersion and frequency response. Every element is optimized for maximum reliability and efficiency. Incredibly dynamic sound and constant, lasting performances in whatever factory locations.

135 1045 2 Way 165mm • £89.99 set

5 EBX SUB BOXES

Designed to provide bursting dynamics and to minimise size requirements, EBX products result from long studies about car compartment acoustics. These boxes have an inclination wall; they are made of very thick MDF, in order for them to be inert and stable. Xponential Flanged Duct is a proprietary raccord style vent, reducing air turbulences to a minimum. The terminals were designed with special attention paid to ergonomics and efficiency. They are flush mounted into a milled recess in the enclosure itself, improving the integrity of the installation. Thanks to their unique pressure contact design, a low resistance transfer of power is ensured, without damaging the exposed wire strands.

135 1046 Reflex 200mm 4 Ohm 500W • £199.99

135 1047 Reflex 250mm 4 Ohm 700W • £239.99

135 1048 Reflex 300mm 4 Ohm 1000W • £299.99

6 ES SUBWOOFERS

Energy ES subwoofers were designed to work best when used in small enclosures. However, their electro-acoustic parameters are optimised for use in many different enclosure types; both in terms of typology (sealed box, reflex, bandpass, etc.) and in size, insuring extraordinary versatility and performance. The use of a long excursion mobile voice coil and high flux density double magnet have created subwoofers that can stand very high power with outstanding musicality and bursting dynamics. The special anti-scratch finish and butyl rubber rings offer protection and an aggressive look.

JUST LISTEN

Dieci loudspeakers offer advanced technology for a powerful sound. Their efficiency makes them easy to be driven at low powers.

Only a selection of the Hertz Dieci range is shown. Visit us in-store or online for information about the full range.

7 TWEETER SET

This 15mm neodymium tweeter insures high level performance and accurate, colourless high frequency response thanks to its very light Mylar membrane. Installation is universal, thanks to the various mounting supports provided, including both surface and flush mounting.

135 1051 • £34.99 set

8 COMPONENT SPEAKER SET

With a DIECI SYSTEM, you can easily build very high quality audio systems that are install-friendly. The woofers use the proprietary "V" Cone membrane, ensuring the best performance. The DT 16 neodymium tweeter provides wide, detailed high frequency response. The in-line hi/lo pass passive crossovers, and the rich accessory kit provided with these systems increase the installation possibilities.
